Premium Tech Tool – Injector Trim Codes

- Applying Injector Trim Codes using Scan Tool
  - Place the cursor in the correct trim code field
  - Clear the previous code
  - Scan the injector barcode
  - Check that the correct injector trim code has been updated.
  - Update the current trim code for all relevant injectors
  - Click Start  to program all the injector trim codes to the Engine Control Module.

NOTE: US16 and previous engines use the E3 Unit Injectors, they are 9 character. When scanned using the scan tool a 39 character string length trim codes will display in the injector field.
Premium Tech Tool – Injector Trim Codes

- **Applying Injector Trim Codes using Scan Tool**
  - Place the cursor in the correct trim code field
  - Clear the previous code
  - Scan the injector barcode
  - Check that the correct injector trim code has been updated.
  - Update the current trim code for all relevant injectors
  - Click Start to program all the injector trim codes to the Engine Control Module.

**NOTE:** All Common Rail Engine (US17 emissions and newer) will be using the F2 Injectors, they are 38 character trim codes. When scanned using the scan tool a 56 character string length will display in the Injector field.
Premium Tech Tool– Injector Trim Codes

SUPPORTED SCANNERS

• Motorola/Zebra Symbol
  – **MODEL:** DS4308-HD 2D Omnidirectional High Density

  *Omni-Directional*
  Enables true point-and-shoot scanning simplicity by eliminating the need to align bar code and scanner.

• Zebra/Motorola Symbol
  – **MODEL:** DS4308-SR Next Generation

  Next generation
  Resets the bar for 2-D imaging by improving decode performance and snappiness, dramatically improving the user experience, user productivity, throughput and wait times.
